1.0 GENERAL INFORMATION

1.0 GENERAL INFORMATION

1.1 EULA

Trip Management System
Copyright (c) 2016 Logic Gate

***** END USER LICENSE AGREEMENT *****

IMPORTANT: These license terms are an agreement between Logic Gate (or based on where you live, one of its affiliates) and you. Please read them. They apply to the software named above. By using the software, you accept these terms. If you do not accept them, do not use the software. If you comply with these license terms, you have the rights below.

1.1.1 LICENSE

By receiving, opening the file package, and/or using Trip Management System ("Software") containing this software, you agree that this End User License Agreement (EULA) is a legally binding and valid contract and agree to be bound by it. You agree to abide by the intellectual property laws and all of the terms and conditions of this Agreement. Unless you have a different license agreement signed by Logic Gate your use of Trip Management System indicates your acceptance of this license agreement and warranty. Subject to the terms of this Agreement, Logic Gate grants to you a limited, non-exclusive, non-transferable license, without right to sub-license, to use Trip Management System in accordance with this Agreement and any other written agreement with Logic Gate. Logic Gate does not

transfer the title of Trip Management System to you; the license granted to you is not a sale. This agreement is a binding legal agreement between Logic Gate and the purchasers or users of Trip Management System.

If you do not agree to be bound by this agreement, remove Trip Management System from your computer now and, if applicable, promptly return to Logic Gate by mail any copies of Trip Management System and related documentation and packaging in your possession.

1.1.2 DISTRIBUTION

Trip Management System and the license herein granted shall not be copied, shared, distributed, re-sold, offered for re-sale, transferred or sub-licensed in whole or in part except that you may make one copy for archive purposes only. For information about redistribution of Trip Management System. Contact Logic Gate.

1.1.3 USER AGREEMENT

1.1.3.1 Use

Your license to use Trip Management System is limited to the number of licenses purchased by you. You shall not allow others to use, copy or evaluate copies of Trip Management System.

1.1.3.2 Use Restrictions

You shall use Trip Management System in compliance with all applicable laws and not for any unlawful purpose.

Without limiting the foregoing, use, display or distribution of Trip Management System together with material that is pornographic, racist, vulgar, obscene, defamatory, libelous, abusive, promoting hatred, discriminating or displaying prejudice based on religion, ethnic heritage, race, sexual orientation or age is strictly prohibited.

Each licensed copy of Trip Management System may be used on one single computer location by one user. Use of Trip Management System means that you have loaded, installed, or run Trip Management System on a computer or similar device. If you install Trip Management System onto a multi-user platform, server or network, each and every individual user of Trip Management System must be licensed separately.

You may make one copy of Trip Management System for backup purposes, providing you only have one copy installed on one computer being used by one person. Other users may not use your copy of Trip Management System. The assignment, sublicense, networking, sale, or distribution of copies of Trip Management System are strictly forbidden without the prior written consent of Logic Gate. It is a violation of this agreement to assign, sell, share, loan, rent, and lease, borrow, network or transfer the use of Trip Management System. If any person other than yourself uses Trip Management System registered in your name, regardless of whether it is at the same time or different times, then this agreement is being violated and you are responsible for that violation!

1.1.3.3 Copyright Restriction

This Software contains copyrighted material, trade secrets and other proprietary material. You shall not, and shall not attempt to, modify, reverse engineer, disassemble or decompile Trip Management System. Nor can you create any derivative works or other works that are based upon or derived from Trip Management System in whole or in part.

Logic Gate's name, logo and graphics file that represents Trip Management System shall not be used in any way to promote products developed with Trip Management System. Logic Gate retains sole and exclusive ownership of all right, title and interest in and to Trip Management System and all Intellectual Property rights relating thereto.

Copyright law and international copyright treaty provisions protect all parts of Trip Management System, products and services. No program, code, part, image, audio sample, or text may be copied or used in any way by the user except as intended within the bounds of the single user program. All rights not expressly granted hereunder are reserved for Logic Gate.

1.1.3.4 Limitation of Responsibility

You will indemnify, hold harmless, and defend Logic Gate, its employees, agents and distributors against any and all claims, proceedings, demand and costs resulting from or in any way connected with your use of Logic Gate's Software.

In no event (including, without limitation, in the event of negligence) will Logic Gate, its employees, agents or

distributors be liable for any consequential, incidental, indirect, special or punitive damages whatsoever (including, without limitation, damages for loss of profits, loss of use, business interruption, loss of information or data, or pecuniary loss), in connection with or arising out of or related to this Agreement, Trip Management System or the use or inability to use Trip Management System or the furnishing, performance or use of any other matters hereunder whether based upon contract, tort or any other theory including negligence.

Logic Gate's entire liability, without exception, is limited to the customers' reimbursement of the purchase price of the Software (maximum being the lesser of the amount paid by you and the suggested retail price as listed by Logic Gate) in exchange for the return of the product, all copies, registration papers and manuals, and all materials that constitute a transfer of license from the customer back to Logic Gate.

1.1.3.5 Warranties

Except as expressly stated in writing, Logic Gate makes no representation or warranties in respect of this Software and expressly excludes all other warranties, expressed or implied, oral or written, including, without limitation, any implied warranties of merchantable quality or fitness for a particular purpose.

1.1.3.6 Governing Law

This Agreement shall be governed by the law of the Philippines applicable therein. You hereby irrevocably at

torn and submit to the non-exclusive jurisdiction of the courts of Philippines therefrom. If any provision shall be considered unlawful, void or otherwise unenforceable, then that provision shall be deemed severable from this License and not affect the validity and enforceability of any other provisions.

1.1.3.7 Termination

Any failure to comply with the terms and conditions of this Agreement will result in automatic and immediate termination of this license. Upon termination of this license granted herein for any reason, you agree to immediately cease use of Trip Management System and destroy all copies of Trip Management System supplied under this Agreement. The financial obligations incurred by you shall survive the expiration or termination of this license.

1.1.4 DISCLAIMER OF WARRANTY

THIS SOFTWARE AND THE ACCOMPANYING FILES ARE SOLD "AS IS" AND WITHOUT WARRANTIES AS TO PERFORMANCE OR MERCHANTABILITY OR ANY OTHER WARRANTIES WHETHER EXPRESSED OR IMPLIED. THIS DISCLAIMER CONCERNS ALL FILES GENERATED AND EDITED BY Trip Management System AS WELL.

1.1.5 CONSENT OF USE OF DATA

You agree that Logic Gate may collect and use information gathered in any manner as part of the product support services provided to you, if any, related to Trip Management

System. Logic Gate may also use this information to provide notices to you which may be of use or interest to you.

1.2 System Preface

This manual is intended for new users with little or no experience using the Trip Management System Interface. The goal of this document is to give a broad overview of the main functions of Bus Management Reservation System and some basic instructions on how to set up and administer a list. This document will concentrate on demonstrating interaction with Bus Management Reservation System using PHP.

Every effort has been made to ensure that this document is an accurate representation of the functionality of Bus Management Reservation System. We would appreciate any feedback on this manual.

1.3 System Overview

The Trip Management System is an application that utilizes the net for easy-access for booking and reservation. This program provides a graphical user interface that allows a user to input all information and store it electronically to exterminate the need for using paper records.

1.0 GENERAL INFORMATION

This program uses a client/server based model. The client uses the provided GUI to add passenger's reservation as well as to edit them. The client program will communicate with a MySQL server that saves all the information for each passenger for the bus. The information saved in the database is about passenger's who uses the Trip Management System to have their request to book or reserve recorded from the database. It includes some of their personal information (i.e. name, Henry's number, etc.) and E-mail address to contact them.

2.0 SYSTEM SUMMARY

2.0 SYSTEM SUMMARY

2.0 SYSTEM SUMMARY

2.1 System Configuration

Each employee uses their own computer running Windows OS. On those computers is the client application that will connect to a central database running Windows and MySQL database software. All Trip Management System dedicated computers are connected on a LAN with an outside connection to the internet. This is because passenger's can access the system thru the net for easy reservation.

2.2 User Access Levels

There are two different types of users. Admin Users are the one who have authority to view and update passenger's reservation/booking, bus, route, ticket price within the database. Passenger User refer to customers who will use the reservation thru the use of net. The Admin Users set the Bus and Routes that the bus will take. They also manage the bus schedule and the booking.

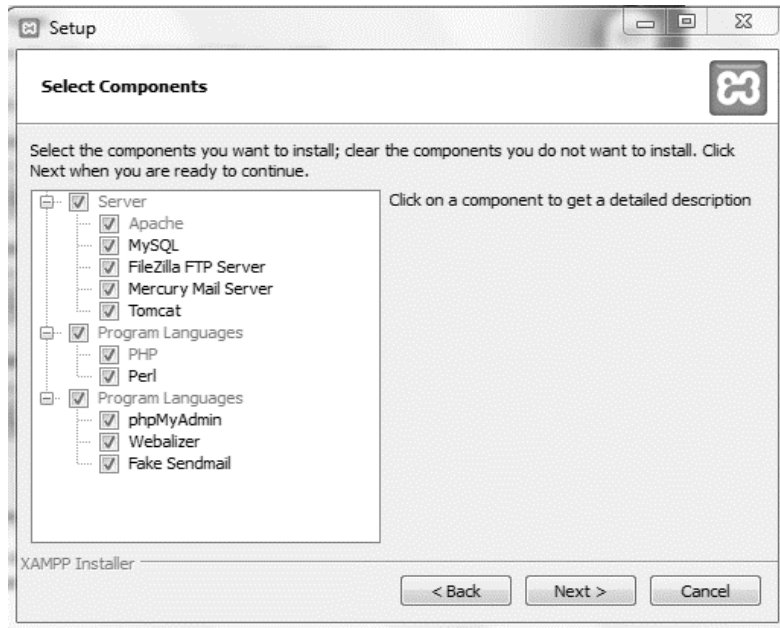

3.0 GETTING STARTED

3.0 GETTING STARTED

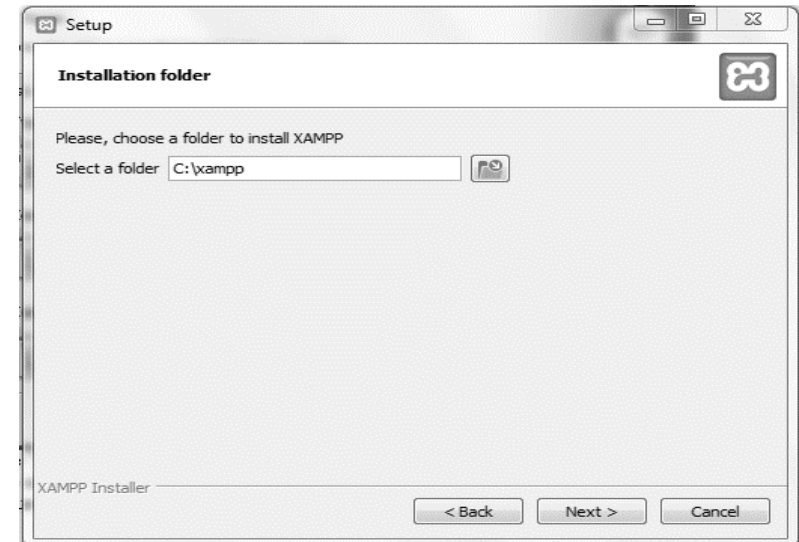

3.1 Setting up XAMPP

We first start by running “XAMPP Installer”. This will begin the installation of XAMPP.

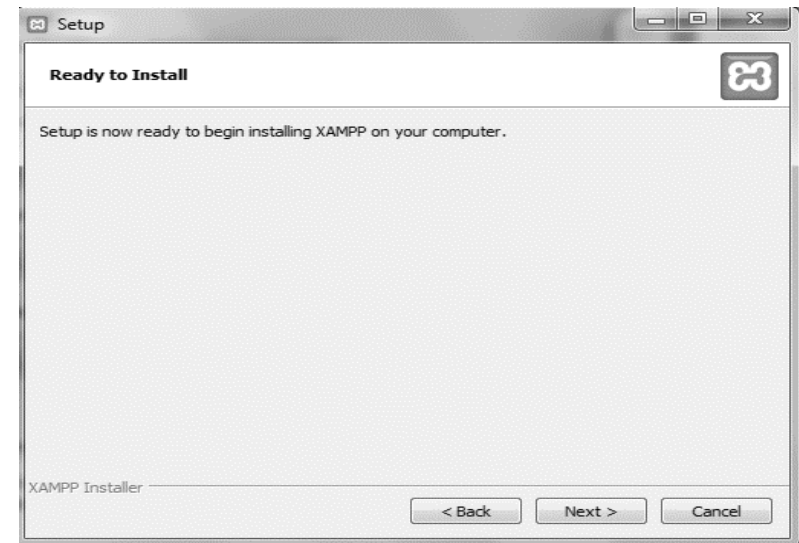

-Click the “Next >” button

-Check all of the components then Click “Next >” twice.

-Select to where will XAMPP folder will be saved then Click “Next

-Click “Next >”

-Just wait until the installation finishes. Take a break and have a coffee. After waiting for about 10 minutes click “Next >”

-Click “Finish” once the processing is complete.

After the installation is complete you will need to use the MySQL Command Line Client (which can be found under Start Menu -> MySQL -> MySQL Server 5.0) Once the command prompt comes up you will need to enter the root password you set in the MySQL setup. From this command line you will be able to complete setting up the database tables and adding MySQL Users

3.2 Setting up TMS System and TMS 1.0.rar

-Extract the both .rar files

-Copy all the files inside TMS System and replace all files inside TMS 1.0

-Move the extracted TMS 1.0.rar to htdocs located inside the XAMPP folder.

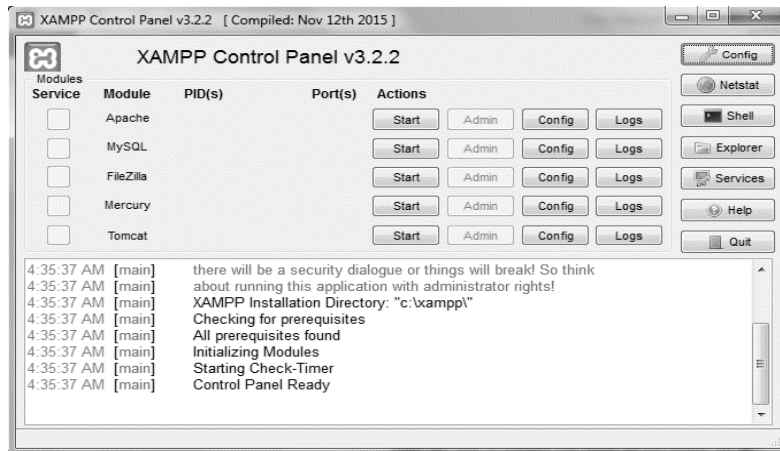

3.3 Making the Bus Reservation Work

Once you finish doing the setup for TMS 1.0 and XAMPP

3.0 GETTING STARTED

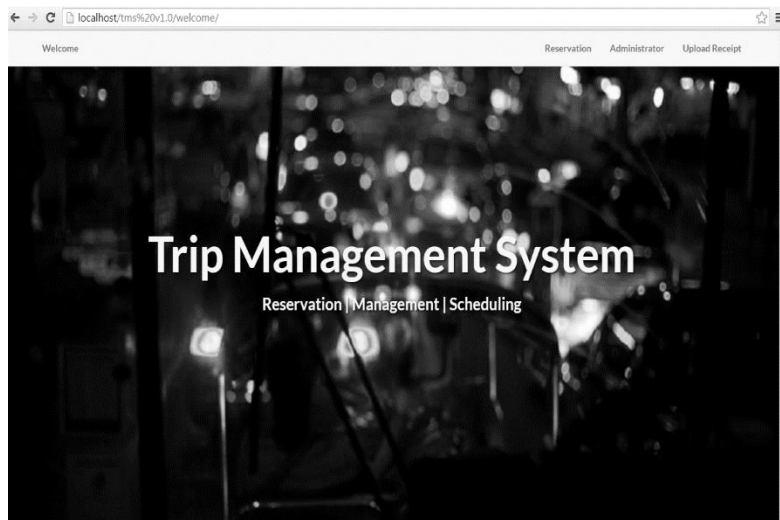

4.0 USING THE CLIENT APPLICATION

- Open the XAMPP Control Panel
- Click the Start of Apache and MySQL

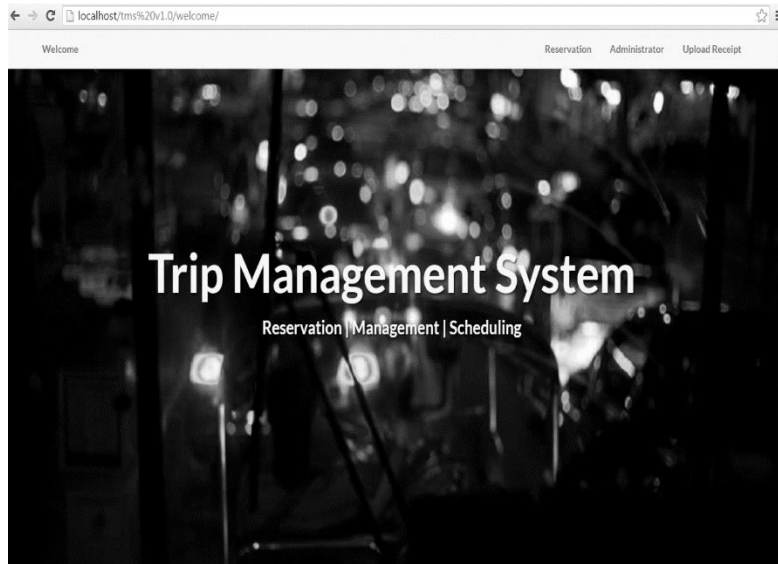

4.0 USING THE CLIENT APPLICATION

- Open any browser and type <http://localhost/tms%20v1.0/welcome> at the URL

4.0 USING THE TRIP MANAGEMENT SYSTEM

4.1 Introductory

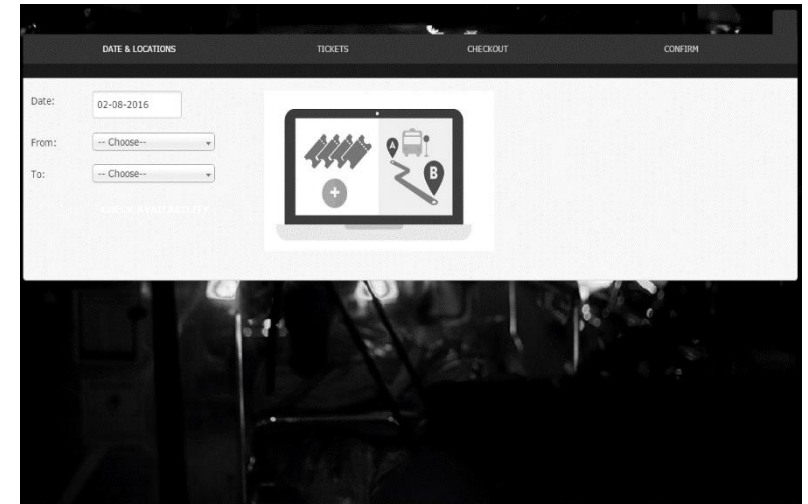

This is the Introductory page or the first thing that will you see after you enter the URL. There are (2) option that you will see in this part. First option is the Reservation where Passenger's will have an option that will let them choose what date will they have the reservation and what bus and how many people will be reserved for the seating. Second option is the Administrator where the Admin will have the authority to view and edit the bus, route, booking, and the ticketing price of each bus

4.2 Reservation Tab

Upon clicking the Reservation option, you will be setting things in the Reservation option.

4.2.1 Date & Location Tab

In this step you will be asked if what date would you like to reserve and from and to where will you go

4.2.2 Ticket Tab

Journey from **GMA to SM Novaliches**
Date of departure: < prev **21-08-2016** next >

Bus	Available seats	Departure from	Arrive to	Duration	Tickets
Alabang to SM Fairview	57	12:00	13:30	1 hour 30 minutes	<div>Senior Citizen</div> <div>5 x 80.00 PHP</div> <div>Student</div> <div>5 x 38.00 PHP</div>

Select 10 seats Selected seat(s):

2 4 5 6 7 8 9 10 11 12 13 14 15 16

1 3 21 22 23 24 25 26 27 28 29 30 31 17

32 33 34 35 36 37 38 39 40 41 42 43 44 18

45 46 47 48 49 50 51 52 53 54 55 56 57 19

Available Selected Booked

The second step is the Tickets, the passenger will set the number of persons and the seat that they will accommodate. After the passenger finish setting the sit and the tickets, the passenger should click the checkout located at the bottom right of the screen.

4.2.3 Checkout Tab

Booking Details

JOURNEY
Date: **21-08-2016** Change date

 Payment method: Cash

The passenger will have another chance to confirm the transaction before processing it into the database of the system. There would be a Confirmation button at the bottom right of the page.

4.3 Administrator Section

The Administrator option have a variety of function. This is where the administrators will view, add or change the bus, location and routes.

4.3.1 Administrator Login

The screenshot shows the Administrator Login page. It features a dark background with a bus icon in the top left corner. A white login form is centered on the page. The form has a 'WELCOME' header, followed by 'Email' and 'Password' fields. Below the password field are 'Login' and 'Forgot password' buttons.

WELCOME

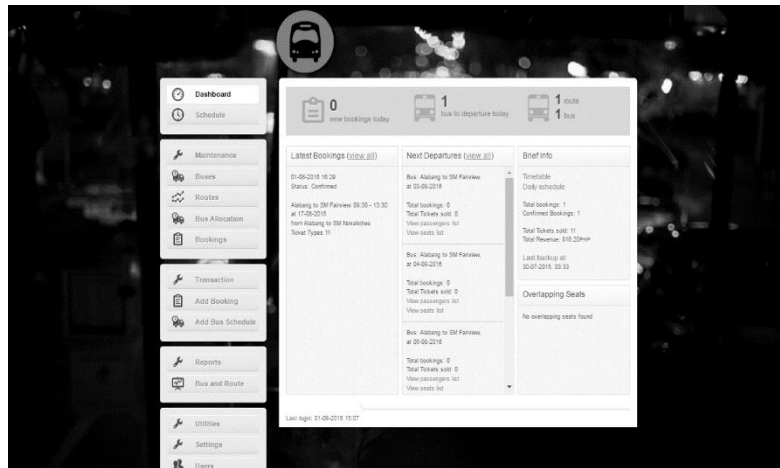

Email: @ bryanbunavides@yahoo.com
 Password: *****
 Login Forgot password

The Administrator Login keeps the system safe from unauthorized use of other people

4.0 USING THE CLIENT APPLICATION

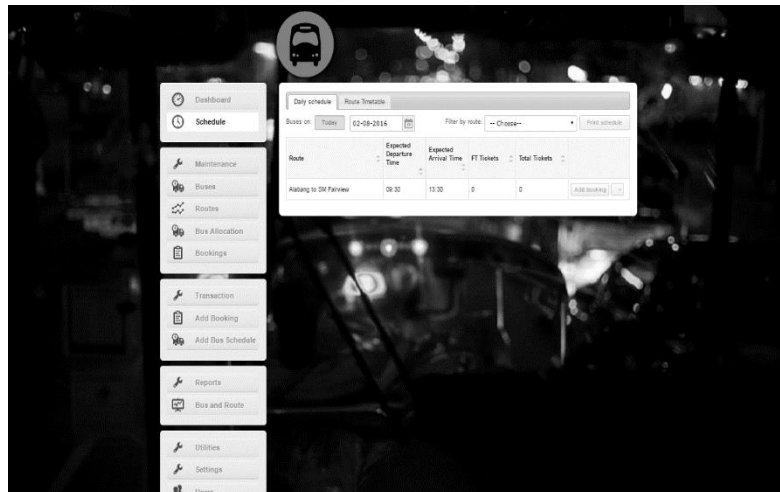

4.0 USING THE CLIENT APPLICATION

4.3.2 Dashboard Button

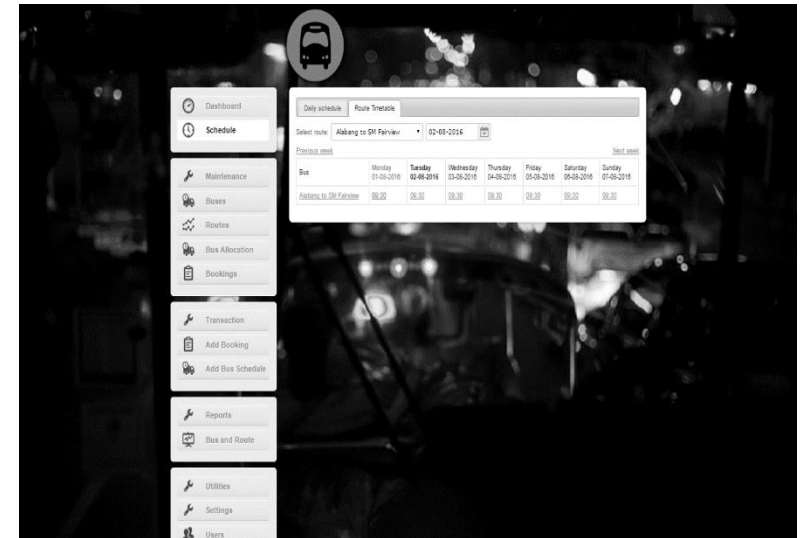

In the Dashboard, the administrator will see the latest reports and summary of the transactions.

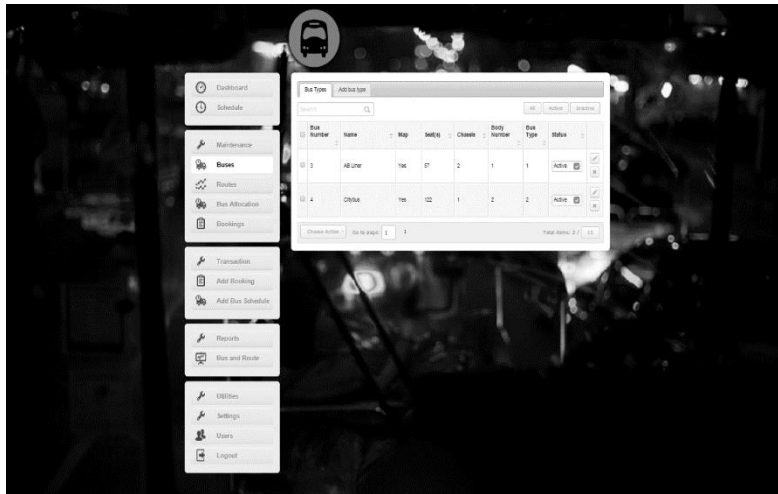

4.3.3 Schedule Button

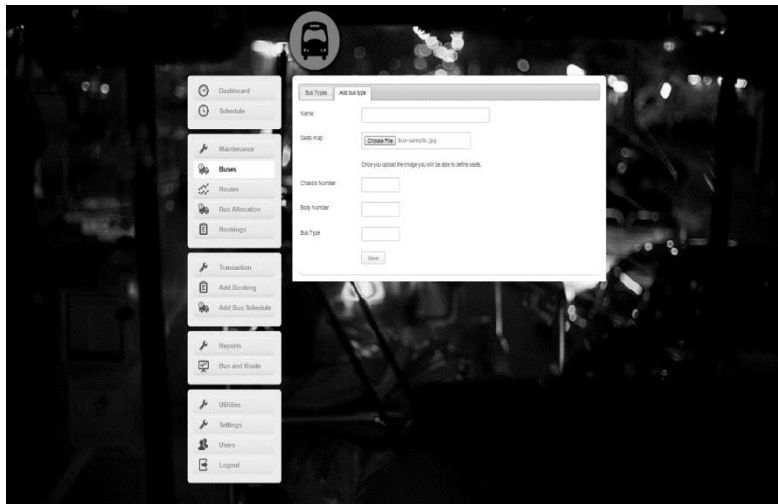

In the schedule, the administrator will see the schedule and also the route time table.

4.3.4 Buses Tab

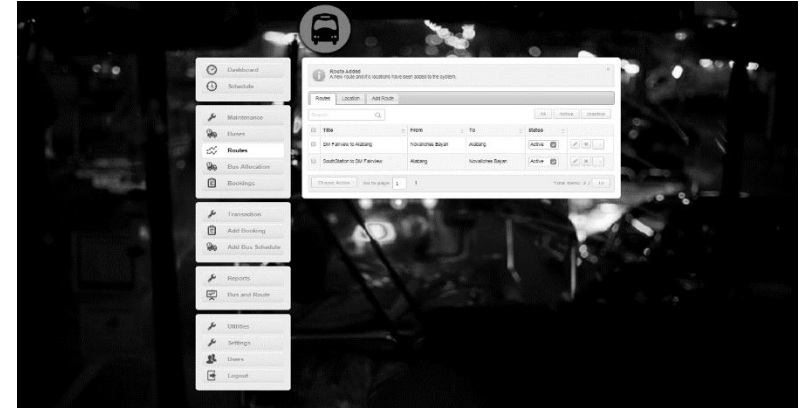

The admin will see the buses that are available and active and there is also an option to edit, update and add buses.

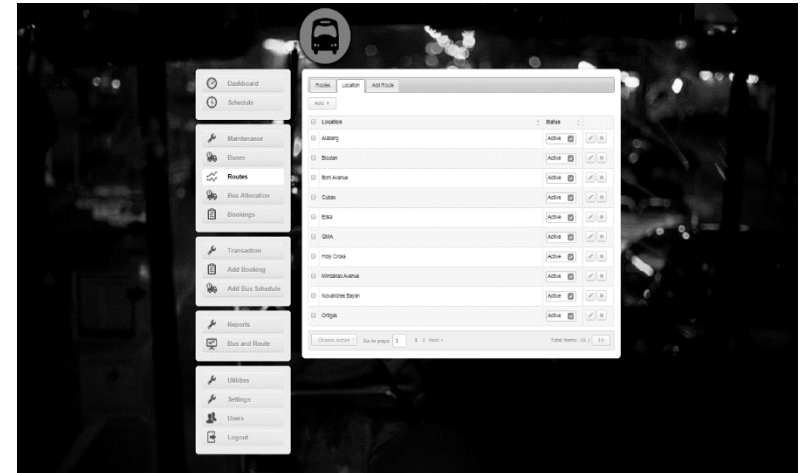

This is the option for adding bus for the trip. This option is located just next of Bus Type Tab.

4.3.5 Routes Tab

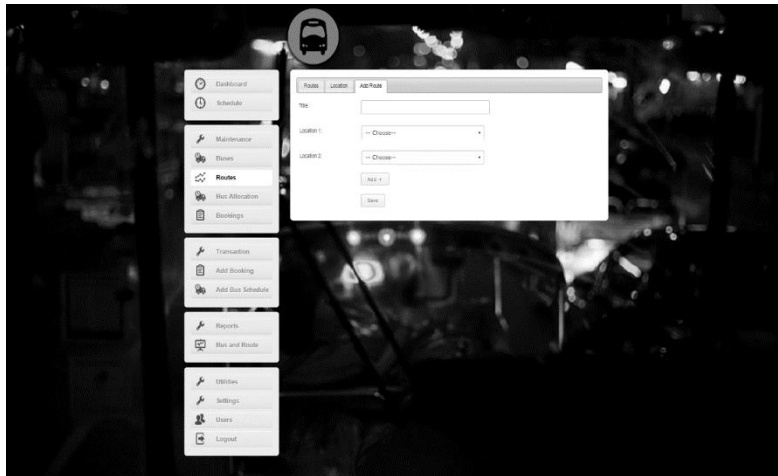

In this option, Admin can see all the routes that the bus will take. The admin can also use the search by simply typing in the text field the desired route.

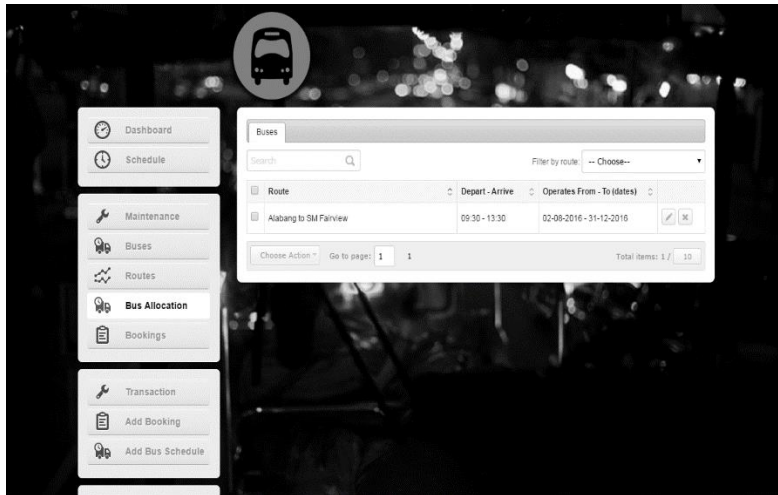

In here, admin will see the available Location that the bus can take

4.0 USING THE CLIENT APPLICATION

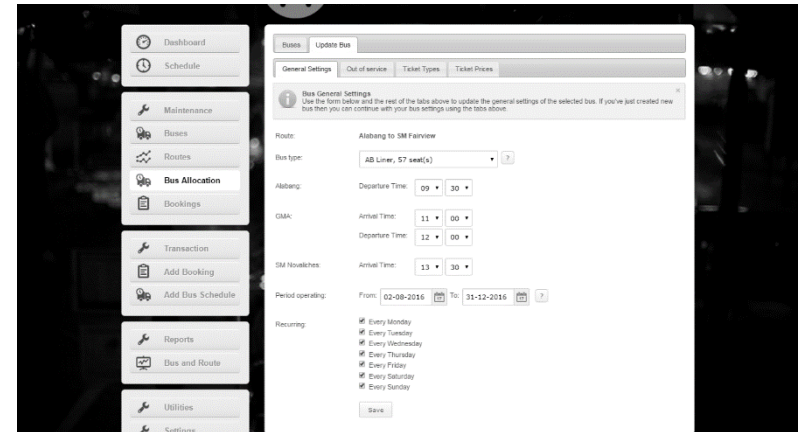

Admin can make routes for the bus by adding the location that it should take in order and the title of it in the text field

4.3.6 Bus Allocation Button

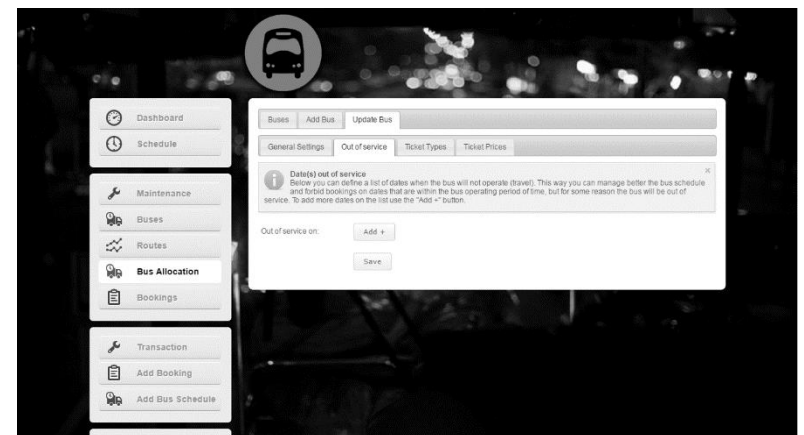

4.0 USING THE CLIENT APPLICATION

In this option, Admin will see the available routes that the bus will take. Admin can also edit it by simply clicking the pencil icon.

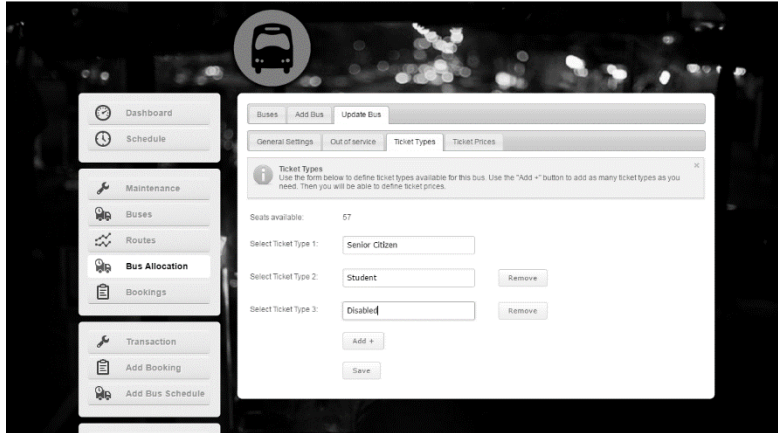

Updating of the time of Arrival and Departure, even the Date of operation of the bus is set in here. Setting the arrival and departure can be done by choosing the time in the Drop down box which will list the time that the user desire to set.

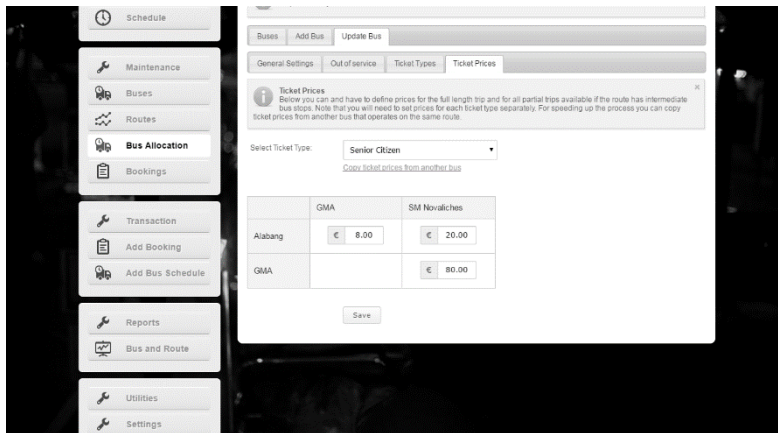

4.0 USING THE CLIENT APPLICATION

If a bus is Out of Service or in Maintenance, Admin can set them here.

Adding various type of tickets can be conducted here by the admin. He/she can add or remove types of tickets.

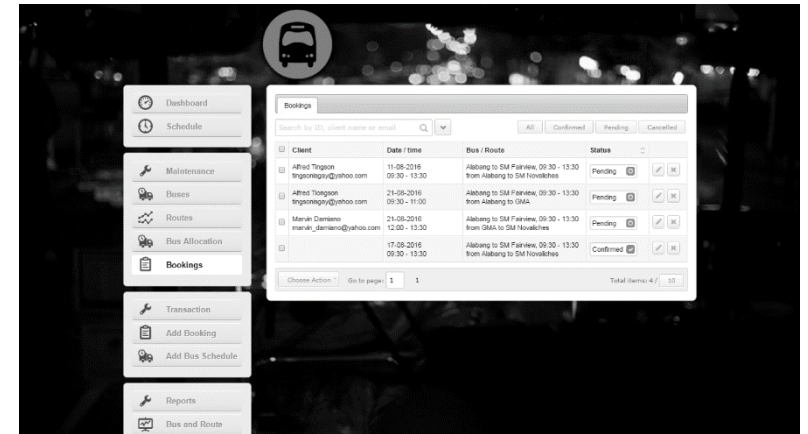

Every ticket has its own unique price for every location that the bus would stop. In this particular option, the admin can

4.0 USING THE CLIENT APPLICATION

set the price of every type of ticket or just copy it from another bus.

4.3.7 Booking Button

Bookings is where the admin will see the status of the bookings of the passengers. The admin can edit the bookings if the passenger wishes to edit their bookings.

4.3.8 Add Booking Tab

In the Add Booking function, the admin will add the booking of the passenger. The admin will set the desire date of the passenger and the where would he/she desire to go also the Tickets that they wish to buy and the seats. They also have the option choose the Payment Method.

4.3.9 Bus and Route Button

In this section, the admin can generate the busses and routes that the bus will use.

4.3.10 Settings Button

Configuration can be done in here to fit the currency that the bus company uses. Backup of database is also located in here as well as changing the tax.

4.3.11 Users Button

The Users are where the admins username and password is located. This is where you can update user if there is a possible new employee that will use the system.

5.0 SYSTEM REQUIREMENTS

5.0 SYSTEM REQUIREMENTS

5.0 SYSTEM REQUIREMENTS

System Requirements

XAMPP

Requirement:	
WINDOWS	Windows 2008,2012, Vista, 7 , 8
Linux	Most all distributions of Linux are supported, including Debian, RedHat, CentOS, Ubuntu, Fedora, Gentoo, Arch, SUSE.
OS X	Mac OS X 10.6 or later.

For Browsers:

Mozilla Firefox

Requirement:	
Windows	Windows XP SP2, Windows Server 2003 SP1, Windows Vista, Windows 7, Windows 8 Windows 10 Recommended Hardware: Pentium 4 or newer processor that supports SSE2 512MB of RAM 200MB of hard drive space

5.0 SYSTEM REQUIREMENTS

Mac	Mac OS X 10.9 Mac OS X 10.10 Mac OS X 10.11 Recommended Hardware: Macintosh computer with an Intel x86 processor 512MB of RAM 200MB hard drive space
Linux	Firefox will not run without the following Libraries GTK + 3.4 or higher Glib 2.22 or higher Pango 1.14 or higher X.Org 1.0 or higher libstdc++ 4.3 For Optimal Functionality: Network Manager 0.7 or higher DBus 1.0 or higher HAL 0.5.8 or higher GNOME 2.16 or higher

5.0 SYSTEM REQUIREMENTS

Google Chrome

System Requirement:	
Windows	Windows 7, Windows 8, Windows 8.1, Windows 10 or later An Intel Pentium 4 processor or later that's SSE2 capable
Mac	OS X Mavericks 10.9 or later
Linux	To use Chrome, you'll need: 64-bit Ubuntu 14.04+, Debian 8+, openSUSE 13.1+, or Fedora Linux 21+ An Intel Pentium 4 processor or later that's SSE2 capable

6.0 GLOSSARY

6.0 GLOSSARY

Text Field – refers to where the user can input value/text.

XAMPP – a cross platform application to make the database work.

Database – an organized container for different types of data. There stores the data of all the information in the system.

Passenger – The user that will use the system by accessing the page.

Administrator – The user that handles the flow of information inside the system.

Drop Down Box – a dropdown list containing available and registered items from the database.
